FAITH WINS

While a limited case can be made for separation of church and state, that does not mean God should be removed from government. The Church should serve as the conscience of government, business and culture. It should influence and shape our region, state and nation. This FREE conference features Chad Connelly (FaithWins.us), David Barton (WallBuilders.com) and evangelist Byron Foxx. It explores practical, proven opportunities for the faith community to positively affect the political environment in Oregon. **Register at:** 10xgroups.com/faith-wins

THE HIGHER GROUND SUMMIT

A highly practical equipping conference for Church, government, business and non-profit leaders to learn effective ways to engage with people of all belief systems on contentious social and political topics from a Biblical foundation. We'll explore how to invite relationships and open the door for positive dialogue and debate without causing division and needless offense, while not simply pandering, placating or compromising on Biblical truth. We can honor God, respect people and shape cultural discussions, but it is a challenging task requiring extremely well-developed communication skills and Biblically-grounded perspectives...messed carefully and well. Developing our skill at entering into and guiding cultural conversations will be the focus of this unique Summit, led by nationally renowned expert Greg Koukl. Riverhouse Convention Center. **For more info go to:** 10xgroups.com/higher-ground-summit
