

You Can Lead Peer Advisory Boards for Christian CEOs & Entrepreneurs

If you have coaching or consulting aptitude, here's how you can build a satisfying six-figure professional practice doing Great Commission work in the marketplace.

Welcome to the 10x Catalyst Groups® Certified Facilitator Licensing Program. Imagine the advantages of being part of a confidential, non-competitive peer group of select Christian CEOs, Business Owners and Entrepreneurs - men and women producing real results in the marketplace every day as they build exceptional businesses and use them as a platform to advance the Gospel.

That's the experience you can create for business leaders as a Certified 10x Catalyst Facilitator. You can lead full-day (7 hour) monthly peer advisory executive round table groups for CEOs and Business Owners with companies having five or more employees based on the 10x CEO curriculum.

You can also lead half-day (4 hour) monthly round table groups for sole proprietors, individual producers and professional practice owners. This is a large, vibrant and virtually untapped market. If you like mentoring young leaders, this is for you!

The 10x Program. 10x is a proven, one-of-a-kind program organized around a custom curriculum and unique process specifically designed to generate immediate results in business and ministry. Meetings are facilitated by a seasoned business leader and coach. They afford members the opportunity to confidentially bring timely issues, opportunities, problems and questions to the group for unbiased Biblically-based input. Annual strategic planning and a unique peer-to-peer coaching model are important facets. Each month, members set Holy Spirit inspired goals for the next 30 days and peers form a support system of positive accountability and strategic prayer.

The ROI. What you'll experience as a 10x Facilitator is a Platform for Progress™ that yields predictable results month after month in the spiritual life, relationships, family, business and marketplace ministry of your members. And, if you work diligently, you can get paid well doing so.
